You don't often get email from associatepisceme@nihr.ac.uk. [Learn why this is important](#)

This message is from an external sender. Please take care when responding, clicking links or opening attachments.

Dear Colleagues

I am pleased to confirm that the FIDO study (CPMS ID: 53493) has now been registered for the Associate PI Scheme and has been added to the List of Registered Studies on the [NIHR Associate PI Scheme Website](#).

Applicants are now able to register to be Associate PIs for this study, having obtained approval from their local PI, using the [NIHR Associate PI Scheme Applicant Registration Form](#) which is also available on the aforementioned website.

You should now publicise that the study is part of the Associate PI Scheme with all of your participating sites and Local PIs, and encourage them to identify trainees who would be interested in enrolling.

We have put together a [Resources site](#) that includes [Guidance for Clinical Trials Units \(or equivalent managing organisations\)](#), which we highly recommend that you read. It contains useful information about the role of the CTU in the Associate PI Scheme, guidance about signing off an Associate PIs Checklist and promotional materials you can use to publicise that your study is on the Associate PI Scheme.

We now have an ODP dashboard to enable study coordinators to review the list of Associate PIs for their study. Access to this dashboard will be restricted to those who are listed as 'Study Coordinators' on the study CPMS record. If you would like any additional study team members to have access to this resource, then please complete the short form at this [link](#) so that we know which members are approved to view this data.

For information - CTU Webinar

We hosted a webinar on 28th July 2022 for Clinical Trials Units (or equivalent managing organisations, such as Sponsors) to discuss how the Associate PI Scheme can help study teams engage more health and care professionals to deliver studies. The recording is available to watch at [this link](#).

We wish you every success with your study and look forward to receiving Associate PI registrations for it.

Kind regards,
Levi

NIHR CRN Associate PI Scheme
